

Favorites

Suppose you find a recipe in your collection that you would like to prepare in the near future. This is the situation in which you would put the recipe into the Favorites list. You do this simply by pressing the following buttons:

Add

Remove

You will reach the list of scheduled recipes by clicking on the Favorites button:

If you use the program on multiple computers, the list on all devices will be synchronized.

Date Handling

As of version 10/2017, the dates in the favorites list refer to the date when a recipe was added to the list rather than its creation date. In this way, it is easy to find the recipes that were newly added just by sorting according to the date.

(If the favorites list already contained recipes before upgrading to this version, the dates of these recipes will further refer to the creation date.)
